

Portland, Oregon

April 13, 2017, 6-8 p.m.

2017 LLOYD **eco** DISTRICT

MODEL THE WAY

leadership awards

SPONSORSHIP OVERVIEW

ABOUT THE LEADERSHIP AWARDS

This spring, we will recognize local and regional leaders whose approaches best model the way to community-based sustainability. Come toast these leaders and hear our keynote address how the triple bottom line is producing meaningful outcomes in our communities today.

ABOUT LLOYD ECODISTRICT

Lloyd EcoDistrict has become a role model for sustainability in Portland, and it's easy to see why - our method works. We have garnered national attention for pioneering a collaborative model for sustainability which unites a whole district around a common vision to reduce our environmental impacts while improving the strength of this community and enhancing the local economy. Our committed partners range from leaders in business and public agencies to neighbors, residents, and workers - if you live work or play here, you are part of Lloyd EcoDistrict.

By taking action together, in just five years, we have made substantial progress towards ambitious 25-year goals for energy, waste, transportation, and water. We have reduced building energy use by 12.2% over a few years, nearly halfway towards our long-term goal for energy use reduction. We have launched a planning process working towards zero waste. Perhaps more impressive than our performance, are the leaders and champions of sustainability that have emerged from this district. In Lloyd, we have developers drawing worldwide attention for their exemplary ultra-low impact building designs, early leaders in renewable power paving the way for better access to solar PV, utilities and public agencies testing innovation for the benefit of all, and landmark research on sustainability impacts.
