

2020 LIGHTING BONUS

LIMITED-TIME OFFER FOR NON-RESIDENTIAL CUSTOMERS

Energy Trust of Oregon is offering a limited-time, bonus incentive to non-residential customers that install lighting projects that include:

- High- and low-bay LEDs
- Exterior LEDs
- Decorative/Screw-in/PAR/Directional lamps
- Interior LED fixtures
- 4' TLEDs with existing ballast removed or replaced
- Qualifying custom lighting measures will be calculated at a maximum of 50% of the total eligible measure costs, not to exceed \$0.25/annual kWh saved

See reverse side for details on eligible products.

What are the requirements?

To be eligible for the 2020 Lighting Bonus incentive, the project must be installed at an eligible non-residential customer site. Products purchased through the LED Buydown or SmartWatt and Performance+ participants are not eligible for this bonus incentive. Customer must sign and submit an Energy Trust incentive agreement, complete their qualifying lighting project and submit all required documentation by **December 1, 2020**.

EXAMPLE PROJECT-AT-A-GLANCE

For a grocery project that has 1,490 TLEDs, 195 interior and 60 exterior fixtures:

- \$81,400 installed cost
- \$31,100 annual lighting electric savings

Without bonus

- \$33,400 Energy Trust cash incentive
- 1.5-year simple payback or a 65% return on investment

With bonus

- \$47,400 Energy Trust cash incentive
- 1.1-year simple payback or a 92% return on investment

This bonus increases the customer's return on investment by 27%.

2020 lighting bonus measures and incentives

Eligible products**	Standard incentive	+ Bonus*	= Total incentive
